PRINCE2® AGILE: WHERE CONTROL MEETS INNOVATION, COLLABORATION AND FLEXIBILITY

Scheduled for launch in early 2015, the new PRINCE2 Agile extension module is tailored for organizations and individuals already using PRINCE2, that would like further guidance on how to apply Agile methods to the world's most recognized project management method.

AXELOS

GLOBAL BEST PRACTICE

PRINCE2 and Agile: The perfect fit

As a forward-thinking company with a global reputation for encouraging growth, development and progress, we are constantly monitoring industry trends and how these can shape the evolution of the AXELOS portfolio. As a result – and to reflect our adoption of a more modular approach – early 2015 will see the launch of PRINCE2 Agile. The aim: to support organizations and individuals who use the world's most practiced project management methodology and are seeking to extend their knowledge and understanding of Agile, applying its approach within their existing project management environment.

BROADENING YOUR SKILLSET

Clear, structured, focused

Developed in response to demand from user communities, PRINCE2 Agile will provide more structure, governance and control when working with Agile concepts, methods and techniques. Designed to help experienced PRINCE2 practitioners tailor management controls for Agile development, the new product will help Agile developers understand PRINCE2 governance requirements clearly and comprehensively, as well as the interface between PRINCE2 for control and Agile approaches where it is appropriate.

UNMISSABLE GUIDANCE

THE BEST OF BOTH WORLDS

PRINCE2 Agile: Key benefits

- allows you to focus on both management *and* delivery
- lets you scale to your precise requirements
- gives you control and good governance, flexibility and pragmatism
- will work with any established Agile approach
- a collaboratively-built programme that is corporate friendly
- helps take your projects and working practices to another level of success and achievement.

Key facts

- PRINCE2 practitioners only
- PRINCE2 Agile will be supported by a qualification and accredited training to support its use by individuals and organizations
- The guidance and qualification will be available from Q1 / Q2 in 2015
- Candidates will be asked if they want their names to appear on the published successful candidate register, accessible to employers or potential employers
- The majority of the guidance and course material will be new material for those familiar with PRINCE2 and will look at the interactions between the two approaches and how each needs to be adapted or to accommodate each other
- The qualification will be offered through the existing EI network.
